Hackerspace - Paralelní Polis - Praha

What is Hackers Congress?

Since 2014, Hacker Congress Paralelní Polis is one of the premier events for hackers, artists, activist, libertarians, and crypto-enthusiasts in Europe. Its main goal is to celebrate the new era of digital freedom and crypto-technologies. The congress aims to promote the most recent trends and events from the wide variety of fields such as art, science, crypto-technologies, decentralized economy, or hacktivism.

The 2015 HCPP drew over 250 attendants, complete with academics, tech-entrepreneurs, journalists and students, and this year we are ready to scale the whole event up!

Moreover, this year we are excited to enrich the whole concept of the congress with partnership of Ultrahack - a well known elite hackers gathering combining innovation tournament and 48h hackathon.

We hope your organization will consider joining us in celebrating the new era of decentralize technologies. This booklet contains all the information you need about joining HCPP 2016 as a sponsor for this extraordinary event.

What is Paralelní Polis?

Paralelní Polis is a one-of-a-kind nonprofit organizations that brings together art, social sciences, and modern technologies. The ideas of liberty, independency, and innovative thinking and development of society are the main underlying foundations the whole project is built upon.

The project intends to remain state free as it operates entirely without support from the government, and most of the funds come from voluntary contributions of our donors and partly from commercial activities such as running a unique co-working space and the world's first bitcoin-only cafe.

It was founded by members of a contemporary-art group Ztohoven, and Slovak and Czech hacker-spaces. Its main goal is to promote economic, social and digital freedom. We try be a vocal voice of freedom in order to shape the public discourse, and ultimately works towards a freer future.

Why should you donate?

Meet The Changemakers

The congress brings together a strong community of activists, innovators and crypto enthusiasts with entrepreneurial mindset. These are the people who are going to bring the change we all strive for!

Help Us Make the World Freer

In the era of global surveillance and an increasing trend of restricting our liberties, crypto-technologies play their distinctive role as the counter force to this trend. Proliferation of decentralized technologies inevitably increases freedom of all people.

Step Forward to Paralelní Polis

Being a donor has its perks as we offer a great chance to discover the parallel world of new technologies. Our donors can look forward to interesting workshops on 3D printing, digital privacy, or blockchain & Bitcoin which can serve also as team-building activities. We also offer 1 day rental of our Institute for free, or customized polargraph drawings.

HCPP Sponsorships Packages

We prefer donations in Bitcoins, but accept EUR or CZK too. Perks from the packages can be also combined - based on individual agreement.
